SECTION IV. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in mutual fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk, including the possible loss of principal.
- As the price/value/interest rates of the securities in which the Schemes invest fluctuates, the value of your investment in the Schemes may go up or down
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Schemes.
- The names of the Schemes do not in any manner indicate either the quality of the Schemes or its future prospects and returns.
- The Sponsors are not responsible or liable for any loss resulting from the operation of the Schemes beyond the initial contribution of Rs. 1 lakh made by it towards setting up the Mutual Fund.
- The present Schemes are not guaranteed or assured return Schemes.

Scheme Specific Risk Factors (Applicable to all Schemes)

- Some securities, which are not quoted on the stock exchanges, may be illiquid in nature and may carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. Within the Regulatory limits, the AMC may choose to invest in unlisted securities that offer returns commensurate with risks. Liquidity risk may also arise due to high impact costs for liquidation of securities held in the portfolio. However, in closed ended schemes, liquidity risk on account of underlying securities' market liquidity does not exist as intermediate liquidity is not required. Liquidity access is done through contractual maturity of the security, which is in line with the term of the schemes.
- Money market and debt securities are subject to the risk of an issuer's inability to meet interest and principal payments on its debt obligations (credit risk). The Investment Manager will endeavor to create a portfolio with high credit quality in the required investment horizon. The Risk Management team within the AMC is responsible for continuous surveillance of issuers. These securities may also be subject to price volatility due to factors such as changes in interest rates, general level of market liquidity and market perception of the creditworthiness of the issuer, among others (market risk). The Investment Manager will endeavor to manage credit risk through in-house credit analysis.
- Investments made by the Schemes are subject to reinvestment risk. This risk refers to the interest rate levels at which cash flows received from the securities in the Schemes are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- The NAV of the Schemes' Units, to the extent that the Schemes are invested in fixed income securities, will be affected by changes in the general level of interest rates. When interest rates decline, the value of a portfolio of fixed income securities can be expected to rise. Conversely, when interest rates rise, the value of a portfolio of fixed income securities can be expected to decline. Although this risk exists in a fixed income portfolio, the closed ended nature of the Scheme mitigates the risk as portfolio construction at the time of inception leads to creation of portfolio with securities whose maturity date is in line with the maturity date of the Scheme.
- Different types of securities in which the Schemes would invest as given in the SID carry different levels and types of risk. Accordingly the Schemes' risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are rated AAA carry lower default risk than bonds which are AA rated.
- Concentration risk arises due to concentrated investment in single security or single issuer. The Investment Manager lays down the maximum exposure to a single issuer and also concentration limits on account of large holdings in its 'Fund Manager Guidelines' to avoid undue concentration in portfolio.
- Price risk due to company or sector specific event. The endeavor of the Investment Manager is to invest in securities of issuers, which have high balance sheet strength in the investment horizon to eliminate single company risk.
- Investments in the Schemes made in foreign currency by a Unit Holder are subject to the risk of fluctuation in the value of Indian Rupee.

Risk Factor associated with Listing of Units

- Trading in the Units of the Schemes on the Exchange may be halted because of market conditions or for reasons in view of the Exchange Authorities or SEBI, rendering trading in the Units of the Schemes inadvisable. In addition, trading of the Units of the Schemes is subject to trading halts caused by extraordinary market volatility and pursuant to the Stock Exchange's/market regulator's 'circuit filter' rules. There can be no

assurance that the requirements of the concerned Stock Exchange necessary to maintain the listing of the units of the Schemes will remain unchanged.

- Unit holders may find it difficult or uneconomical to liquidate their investments at any particular time. For the units listed on the exchange, it is possible that the market price at which the units are traded may be at a discount to the NAV of such Units. As a result, a unit holder must be prepared to hold the units until the maturity of the Schemes.
- Although the Units of the Schemes will be listed on the Stock Exchange, there can be no assurance that an active secondary market will develop or be maintained.
- The Units of the Schemes may trade at a significant discount or premium on the Stock Exchange. The NAV of the Schemes will fluctuate in accordance with market supply and demand for the units of the Schemes as well as be affected by changes in NAV.
- Regulatory Risk: Any changes in trading regulations by the Stock Exchange or SEBI among other things may also result in a wider premium/ discount to the NAV of the Schemes. Although the Units are proposed to be listed on the Stock Exchange, the AMC and the Trustees will not be liable for any loss suffered by investors due to delay in listing of units of the Schemes on the Stock Exchange or due to connectivity problems with the depositories due to the occurrence of any event beyond their control.
- In case of investments by NRIs during NFO, at the time of redemption of units, TDS will be deducted at the applicable rate. However, in respect of those Unit Holders who have acquired the Units on the Stock Exchange, the Unit Holders would need to provide a certificate from a Chartered Accountant certifying the details of acquisition of Units to the Fund within two days from maturity of the Scheme, so as to enable the Fund to deduct TDS at the applicable rates. In the event of such details not being provided, the Fund would deduct TDS on the redemption proceeds assuming face value as the cost of acquisition.
- The Trustee reserves the right to list the Units of the Schemes on any other recognized Stock Exchange in India, as may be deemed fit, in which case the investors may face risks related to an undeveloped market, delay in settlements etc.
- There may be acts/omissions on the part of the Stock Exchange resulting in the cancellation of Unit Holder's orders or the execution of orders on erroneous terms.

Risk Factor associated with Close-ended Schemes

Investing in close-ended Schemes is more appropriate for seasoned investors. A close-ended Scheme endeavors to achieve the desired returns only at the scheduled maturity of the Scheme. Hence, Unit Holders who sell their Units in a Scheme prior to maturity may not get the desired returns.

Risk factors associated with Trading in Fixed Income Derivatives

As and when the Schemes trade in fixed income derivative products, there are risk factors and issues concerning the use of such derivatives that investors should understand. Derivatives require the maintenance of adequate controls to monitor the transactions and the embedded market risks that a derivative adds to the portfolio. Besides the price of the underlying asset, the volatility, tenor and interest rates affect the pricing of derivatives. Other risks in using derivatives include but are not limited to: (a) Credit Risk - this occurs when a counterparty defaults on a transaction before settlement and therefore, the Scheme is compelled to negotiate with another counter party, at the then prevailing (possibly unfavorable) market price, in order to maintain the validity of the hedge. (b) Market Liquidity risk, where the derivatives cannot be sold (unwound) at prices that reflect the underlying assets, rates and indices. (c) Model Risk, the risk of mis-pricing or improper valuation of derivatives. (d) Basis Risk, which arises when the instrument used as a hedge does not match the movement in the instrument/underlying asset being hedged. The risks may be inter-related also; for e.g. interest rate movements can affect equity prices, which could influence specific issuer/industry assets.

Risk Analysis on underlying asset classes in Securitisation:

Generally available Asset Classes for securitisation in India are:

- Commercial Vehicles
- Auto and Two wheeler pools
- Mortgage pools (residential housing loans)
- Personal Loan, credit card and other retail loans
- Corporate loans/receivables

In terms of specific risks attached to securitisation, each asset class would have different underlying risks, however, residential mortgages are supposed to be having lower default rates as an asset class. On the other hand, repossession and subsequent recovery of commercial vehicles and other auto assets is fairly easier and better compared to mortgages. Some of the asset classes such as personal loans, credit card receivables etc., being unsecured credits in nature, may witness higher default rates. As regards corporate loans/receivables, depending upon the nature of the underlying security for the loan or the nature of the receivable the risks would correspondingly fluctuate. However, the credit enhancement stipulated by rating agencies for such asset class pools is typically much higher and hence their overall risks are comparable to other AAA rated asset classes.

The rating agencies have an elaborate system of stipulating margins, over collateralisation and guarantees to bring risk limits in line with the other AAA rated securities. It is relevant to note here that predominantly the Schemes intend to invest in only AAA rated securitised debt. This compares favorably with a portfolio which is constructed

on the basis of AA rated securitised debt. Some of the factors, which are typically analyzed for any pool are as follows:

- a. Size of the loan: generally indicates the kind of assets financed with loans. Also indicates whether there is excessive reliance on very small ticket size, which may result in difficult and costly recoveries. To illustrate, the ticket size of housing loans is generally higher than that of personal loans. Hence in the construction of a housing loan asset pool for say Rs.1,00,00,000/- it may be easier to construct a pool with just 10 housing loans of Rs.10,00,000 each rather than to construct a pool of personal loans as the ticket size of personal loans may rarely exceed Rs.5,00,000/- per individual. Also to amplify this illustration further, if one were to construct a pool of Rs.1,00,00,000/- consisting of personal loans of Rs.1,00,000/- each, the larger number of contracts(100 as against one of 10 housing loans of Rs.10 lakh each) automatically diversifies the risk profile of the pool as compared to a housing loan based asset pool.
- b. Average original maturity of the pool: This indicates the original repayment period and whether the loan tenors are in line with industry averages and borrower's repayment capacity. To illustrate, in a car pool consisting of 60 month contracts, the original maturity and the residual maturity of the pool viz. number of remaining installments to be paid gives a better idea of the risk of default of the pool itself. If in a pool of 100 car loans having original maturity of 60 months, if more than 70% of the contracts have paid more than 50% of the installments and if no default has been observed in such contracts, this is a far superior portfolio than a similar car loan pool where 80% of the contracts have not even crossed 5 installments.
- c. Loan to Value Ratio: Indicates how much % value of the asset is financed by borrower's own equity. The lower LTV, the better it is. This Ratio stems from the principle that where the borrowers own contribution of the asset cost is high; the chances of default are lower. To illustrate for a Truck costing Rs.20 lakh, if the borrower has himself contributed Rs.10 lakh and has taken only Rs.10 lakh as a loan, he is going to have lesser propensity to default as he would lose an asset worth Rs.20 lakh if he defaults in repaying an installment. This is as against a borrower who may meet only Rs.2 lakh out of his own equity for a truck costing Rs.20 lakh. Between the two scenarios given above, the latter would have higher risk of default than the former.
- d. Average seasoning of the pool: This indicates whether borrowers have already displayed repayment discipline. To illustrate, in the case of a personal loan, if a pool of assets consist of those who have already repaid 80% of the installments without default, this certainly is a superior asset pool than one where only 10% of installments have been paid. In the former case, the portfolio has already demonstrated that the repayment discipline is far higher.
- e. Default rate distribution: This indicates how much % of the pool and overall portfolio of the originator is current, how much is in 0-30 DPD (days past due), 30-60 DPD, 60-90 DPD and so on. The rationale here is very obvious, as against 0-30 DPD, the 60-90 DPD is certainly a higher risk category.

Unlike in plain vanilla instruments, in securitisation transactions it is possible to work towards a target credit rating, which could be much higher than the originator's own credit rating. This is possible through a mechanism called 'Credit enhancement'. The purpose of credit enhancement is to ensure timely payment to the investors, if the actual collection from the pool of receivables for a given period are short of the contractual payouts on securitisation. Normally, securitisation leads to non-recourse instruments and therefore, the repayment on securitisation would have to come from the underlying assets and the credit enhancement. Therefore, the rating criteria centrally focus on the quality of the underlying assets.

World over, the quality of credit ratings is measured by default rates and stability. An analysis of rating transition and default rates, witnessed in both international and domestic arena, clearly reveals that structured finance ratings have been characterized by far lower default and transition rates than that of plain vanilla debt ratings. Further, internationally, in case of structured finance ratings, not only are the default rates low but post default recovery is also high.

In the Indian scenario, also, more than 95% of issuances have been AAA rated issuances indicating the strength of the underlying assets as well as adequacy of credit enhancement.

Investment exposure of the Mutual Fund with reference to Securitised Debt:

The Schemes will predominantly invest only in those securitisation issuances which have AAA rating indicating the highest level of safety from credit risk point of view at the time of making an investment. The Schemes will not invest in foreign securitized debt.

The Schemes may invest in various types of securitisation issuances, including but not limited to Asset Backed Securitisation, Mortgage Backed Securitisation, Personal Loan Backed Securitisation, Collateralized Loan Obligation /Collateralized Bond Obligation and so on.

The Schemes do not propose to limit their exposure to only one asset class or to have asset class based sub-limits as it will primarily look towards the AAA rating of the offering.

The Schemes will conduct an independent due diligence on the cash margins, collateralisation, guarantees and other credit enhancements and the portfolio characteristic of the securitisation to ensure that the issuance fits in to the overall objective of the investment in high investment grade offerings irrespective of underlying asset class.

Risk Factors specific to investments in Securitised Papers:

Types of Securitised Debt vary and carry different levels and types of risks. Credit Risk on Securitised Bonds depends upon the Originator and varies depending on whether they are issued with Recourse to Originator or otherwise. Even within securitised debt, AAA rated securitised debt offers lesser risk of default than AA rated securitised debt. A structure with Recourse will have a lower Credit Risk than a structure without Recourse.

Underlying assets in Securitised Debt may assume different forms and the general types of receivables include Auto Finance, Credit Cards, Home Loans or any such receipts, Credit risks relating to these types of receivables depend upon various factors including macro economic factors of these industries and economies. Specific factors like nature and adequacy of property mortgaged against these borrowings, nature of loan agreement/ mortgage deed in case of Home Loan, adequacy of documentation in case of Auto Finance and Home Loans, capacity of borrower to meet its obligation on borrowings in case of Credit Cards and intentions of the borrower influence the risks relating to the asset borrowings underlying the securitized debt.

Holders of the securitised assets may have low credit risk with diversified retail base on underlying assets especially when securitised assets are created by high credit rated tranches, risk profiles of Planned Amortisation Class tranches (PAC), Principal Only Class Tranches (PO) and Interest Only class tranches (IO) will differ depending upon the interest rate movement and speed of prepayment.

Unlike in plain vanilla instruments, in securitisation transactions, it is possible to work towards a target credit rating, which could be much higher than the originator's own credit rating. This is possible through a mechanism called 'Credit enhancement'. The process of 'Credit enhancement' is fulfilled by filtering the underlying asset classes and applying selection criteria, which further diminishes the risks inherent for a particular asset class. The purpose of credit enhancement is to ensure timely payment to the investors, if the actual collection from the pool of receivables for a given period is short of the contractual payout on securitisation. Securitisation is normally non-recourse instruments and therefore, the repayment on securitisation would have to come from the underlying assets and the credit enhancement. Therefore the rating criteria centrally focus on the quality of the underlying assets.

The change in market interest rates - prepayments may not change the absolute amount of receivables for the investors, but may have an impact on the re-investment of the periodic cash flows that the investor receives in the securitised paper.

Limited Liquidity and Price risk

Presently, secondary market for securitised papers is not very liquid. There is no assurance that a deep secondary market will develop for such securities. This could limit the ability of the investor to resell them. Even if a secondary market develops and sales were to take place, these secondary transactions may be at a discount to the initial issue price due to changes in the interest rate structure.

Limited Recourse, Delinquency and Credit Risk

Securitised transactions are normally backed by pool of receivables and credit enhancement as stipulated by the rating agency, which differ from issue to issue. The Credit Enhancement stipulated represents a limited loss cover to the Investors. These Certificates represent an undivided beneficial interest in the underlying receivables and there is no obligation of either the Issuer or the Seller or the originator, or the parent or any affiliate of the Seller, Issuer and Originator. No financial recourse is available to the Certificate Holders against the Investors' Representative. Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Investor Payouts may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of a Obligor to repay his obligation, the Servicer may repossess and sell the underlying Asset. However many factors may affect, delay or prevent the repossession of such Asset or the length of time required to realize the sale proceeds on such sales. In addition, the price at which such Asset may be sold may be lower than the amount due from that Obligor.

Risks due to possible prepayments: Weighted Tenor / Yield

Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments. Full prepayment of underlying loan contract may arise under any of the following circumstances:

- Obligor pays the Receivable due from him at any time prior to the scheduled maturity date of that Receivable; or
- Receivable is required to be repurchased by the Seller consequent to its inability to rectify a material misrepresentation with respect to that Receivable; or
- The Servicer recognizing a contract as a defaulted contract and hence repossessing the underlying Asset and selling the same

In the event of prepayments, investors may be exposed to changes in tenor and yield.

Bankruptcy of the Originator or Seller

If originator becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the sale from originator to Trust was not a sale then an Investor could experience losses or delays in the payments due. All possible care is generally taken in structuring the transaction so as to minimize the risk of the sale to Trust not being construed as a "True Sale". Legal opinion is normally obtained to the effect that the assignment of Receivables to Trust in trust for and for the benefit of the Investors, as envisaged herein, would constitute a true sale.

Bankruptcy of the Investor's Agent

If Investor's agent becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the recourse of Investor's Agent to the assets/receivables is not in its capacity as agent/Trustee but in its personal capacity, then an Investor could experience losses or delays in the payments due under the swap agreement. All possible care is normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets/ receivables if and when held by Investor's Agent is held as agent and in Trust for the Investors and shall not form part of the personal assets of Investor's Agent. Legal opinion is normally obtained to the effect that the Investors Agent's recourse to assets/receivables is restricted in its capacity as agent and trustee and not in its personal capacity.

Credit Rating of the Transaction / Certificate

The credit rating is not a recommendation to purchase, hold or sell the Certificate in as much as the ratings do not comment on the market price of the Certificate or its suitability to a particular investor. There is no assurance by the rating agency either that the rating will remain at the same level for any given period of time or that the rating will not be lowered or withdrawn entirely by the rating agency.

Risk of Co-mingling

The Servicers normally deposit all payments received from the Obligors into the Collection Account. However, there could be a time gap between collection by a Servicer and depositing the same into the Collection account especially considering that some of the collections may be in the form of cash. In this interim period, collections from the Loan Agreements may not be segregated from other funds of the Servicer. If the Servicer fails to remit such funds due to Investors, the Investors may be exposed to a potential loss. Due care is normally taken to ensure that the Servicer enjoys highest credit rating on stand alone basis to minimize Co-mingling risk.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEMES

The Scheme(s) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of such Scheme(s). These conditions will be complied with immediately after the close of the NFO itself i.e. at the time of allotment. In case of non-fulfillment with the condition of minimum 20 investors, Scheme(s) concerned shall be wound up in accordance with Regulation 39 (2) (c) of the SEBI (MF) Regulations automatically without any reference from SEBI. In case of non-fulfillment with the condition of 25% holding by a single investor on the date of allotment, the application to the extent of exposure in excess of the stipulated 25% limit would be liable to be rejected and the allotment would be effective only to the extent of 25% of the corpus collected. Consequently, such exposure over 25% limits will lead to refund within 6 weeks of the date of closure of the New Fund Offer.

C. SPECIAL CONSIDERATIONS

- Neither the SID and SAI, nor the Units, have been registered in any jurisdiction. The distribution of this Scheme Information Document in certain jurisdictions may be restricted or subject to registration requirements and, accordingly, persons who come into possession of this SID and the SAI in such jurisdictions are required to inform themselves about, and to observe, any such restrictions. No person receiving a copy of this SID or any accompanying application form in such jurisdiction may treat this SID or such application form as constituting an invitation to them to subscribe for Units, nor should they in any event use any such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used without compliance of any registration or other legal requirements.
- Investment decisions made by the Investment Manager may not always be profitable.
- The Mutual Fund/AMC has not authorized any person to give any information or make any representations, either oral or written, not stated in this SID in connection with issue of Units under the Schemes. Prospective investors are advised not to rely upon any information or representations not incorporated in this SID as the same have not been authorized by the Mutual Fund or the AMC. Any subscription, purchase or sale made by any person on the basis of statements or representations which are not contained in this SID or which are inconsistent with the information contained herein shall be solely at the risk of the investor.
- Suspicious Transaction Reporting: If after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, the AMC shall report such suspicious transactions to

competent authorities under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI, furnish any such information in connection therewith to such authorities and take any other actions as may be required for the purposes of fulfilling its obligations under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI without obtaining the prior approval of the investor/Unit holder/any other person.

Investors are urged to study the terms of the offer carefully before investing in the Schemes and retain this SID and the SAI for future reference.

D. DUE DILIGENCE BY THE AMC

It is confirmed that:

- (i) The draft SID forwarded to SEBI is in accordance with the SEBI (MF) Regulations, and the guidelines and directives issued by SEBI from time to time.
- (ii) All legal requirements connected with the launching of the Schemes as also the guidelines, instructions, etc., issued by the Government and any other competent authority in this behalf, have been duly complied with.
- (iii) The disclosures made in the SID are true, fair and adequate to enable the investors to make a well informed decision regarding investment in the proposed Scheme.
- (iv) The intermediaries named in the SID and SAI are registered with SEBI and their registration is valid, as on date.

SECTION V - INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEMES

Close ended income Schemes.

B. WHAT IS THE INVESTMENT OBJECTIVE OF THE SCHEMES?

The primary investment objective of the Schemes is to seek capital appreciation by investing in a portfolio of debt and money market securities. It is envisaged that the Schemes will invest only in securities which mature on or before the date of maturity of the Schemes. The Schemes may also use fixed income derivatives for hedging and portfolio balancing. There is no assurance that the investment objective of the Schemes will be realized.

C. HOW WILL THE SCHEMES ALLOCATE THEIR ASSETS?

Under normal circumstances, it is anticipated that the asset allocation of each of the Schemes will be as follows:

Asset Category	Exposure		Risk Profile
	Minimum	Maximum	
* # Debt securities	0%	100%	Medium
Money Market Instruments	0%	100%	Low to Medium

*Debt securities may include securitized debts up to 100% of each Scheme's net assets.

#Debt Instruments may include fixed income derivatives (only for hedging and portfolio balancing) up to 100% of each Scheme's net assets.

The Schemes may review the above pattern of investments based on views on the debt markets and asset liability management needs and the portfolio shall be reviewed and rebalanced on a regular basis. It may be noted that no prior intimation/indication will be given to investors when the composition/asset allocation pattern under the Scheme undergo changes within the permitted band as indicated above. Investors/Unit Holders can ascertain details of asset allocation of the Schemes as on the last date of each month on the Mutual Fund's website, www.dsplblackrock.com, which will display the asset allocation of the Schemes as on the given day.

Pending deployment of funds of the Schemes, the AMC may invest funds of the Schemes in short-term deposits of scheduled commercial banks, subject to the following conditions:

- Each Scheme shall not park more than 15% of its net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- Each Scheme shall not park more than 10% of its net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
- The Trustee shall ensure that the funds of each Scheme are not parked in the short term deposits of a bank which has invested in that Scheme.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.

Investment in domestic Securitized Debt

Depending upon the Investment Manager's views, the Schemes may invest in domestic securitized debt such as ABS or MBS. Investments in domestic securitized debt will be made only after giving due consideration to factors such as but not limited to the securitization structure, quality of underlying receivables, credentials of the servicing agent, level of credit enhancement, liquidity factor, returns provided by the securitized paper vis-à-vis other comparable investment alternatives.

Although the returns provided by securitized debt could be higher, one must not lose sight of the fact that risks also exist with regard to investments in securitized debt. Investments in pass-through certificates of a securitization transaction represent an undivided beneficial interest in the underlying receivables and do not represent an obligation of either the issuer or the seller, or the parent of the seller, or any affiliate of the seller or the issuer or the trustee in its personal capacity, save to the extent of credit enhancement to be provided by the credit enhancer. The trust's principal asset will be the pool of underlying receivables. The ability of the trust to meet its obligations will be dependent on the receipt and transfer to the designated account of collections made by the servicing agent from the pool, the amount available in the cash collateral account, and any other amounts received by the trust pursuant to the terms of the transaction documents. However, the credit enhancement stipulated in a securitization transaction represents a limited loss cover only. Delinquencies and credit losses may cause depletion of the amount available under the cash collateral account and thereby the scheduled payouts to the investors may get affected if the amount available in the cash collateral account is not enough to cover the shortfall.

The Schemes will not invest in foreign securitized debt.

D. WHERE WILL THE SCHEMES INVEST?

The investment focus will be on debt securities, which include, but are not limited to:

- Debt obligations of the Government of India, state and local governments, government agencies, statutory bodies, public sector undertakings, scheduled commercial banks, non-banking finance companies, development financial institutions, supra-national financial institutions, corporate entities and trusts (securitised debt).
- Debt and Money Market securities and such other securities as may be permitted by SEBI and RBI from time to time.
- Money market instruments including but not limited to, treasury bills, commercial paper of public sector undertakings and private sector corporate entities, reverse repurchase agreements, CBLOs (Collateralised Borrowing and Lending Obligation), certificates of deposit of scheduled commercial banks and development financial institutions, bills of exchange/promissory notes of public sector and private sector corporate entities (co accepted by banks), government securities with unexpired maturity of one year or less and other money market securities as may be permitted by SEBI/RBI Regulations.
- Pass through, Pay through or other Participation Certificates, representing interest in a pool of assets including receivables.
- Fixed Income derivative instruments like Interest Rate Swaps, Forward Rate Agreements and such other derivative instruments as may be permitted by SEBI/RBI from time to time.
- The debt securities could be listed, unlisted, privately placed or securitised debt securities including but, not restricted to, pass through certificates and strips.
- The non-convertible part of convertible securities.
- Units of Mutual funds as may be permitted by the SEBI (MF) Regulations.
- Any other like instrument as may be permitted by RBI/SEBI/ other regulatory authority, if any, from time to time.

Overview of Debt Market in India

The Indian bond market comprises mainly of Government securities; bonds issued by Public Sector Undertakings (PSU), Development Financial Institutions (DFI) and Infrastructure-related agencies; debentures and money market instruments issued by corporate sectors and banks. The Government of India routinely issues Government securities and Treasury bills for liquidity and fiscal management. While the Government issues Treasury bills for 91 days, 182 days and 364 days in a discounted form, coupon-bearing Government securities are issued for maturity ranging from 1 year to as high as 30 years. Both Treasury bills and coupon-bearing securities are auctioned by the RBI on behalf of the Government of India. The Indian bond market has also witnessed increased issuance of bonds from Government-sponsored institutions, DFIs, and infrastructure-related agencies since 1995. These bonds are rated by credit rating agencies like CRISIL, ICRA, CARE and FITCH. They are widely held by market participants because of their liquidity and reduced risk perception due to the government stake in some of them.

The Indian corporate sector has also been frequently raising capital through issuance of non-convertible debentures and commercial papers. Most of the money is raised through the "Private placement" route. These debentures are mostly rated by rating agencies. While some of them trade very actively, most of them are not very liquid. Because of this, they normally trade at a marginally higher yield than bonds issued by PSU and other government-sponsored agencies.

The securitised debt market in India has grown substantially since the first recorded transaction in 1990. In the last few years, prominent banking and non-banking institutions have chosen the securitisation route. Although asset classes chosen have concentrated mostly on auto and hire purchase receivables, the mortgage backed securities are also being issued in the last few years. The mutual funds have shown good interest and appetite for such asset backed securities.

Hedging Policies in Connection with Trading in Fixed Income Derivatives

SEBI has permitted mutual funds to participate in derivatives trading, subject to the observance of guidelines issued by SEBI. Mutual funds can enter into derivative transactions in accordance with guidelines issued by SEBI. The Mutual Fund has to comply with the prescribed disclosure requirements.

The Schemes may use various fixed income derivatives and hedging products / techniques, for the purpose of hedging and balancing the portfolios, as permitted under the SEBI (MF) Regulations and applicable guidelines. Derivative instruments may take the form of Interest Rate Swaps, Futures, Forward Rate Agreements, or such other derivative instruments as may be appropriate, and permitted from time to time.

Risk factors associated with trading in fixed income derivatives, as mentioned in the SID, are applicable for all the aforesaid derivatives.

Derivatives can be traded over the exchange or can be structured between two counter-parties. Those transacted over the exchange are called Exchange Traded derivatives whereas the other category is referred to as Over the Counter derivatives (OTC).

Some of the differences between these two derivative categories are as under:

Exchange traded derivatives: These are quoted in the exchanges like any other traded asset class. The most common amongst these are the Futures. The basic form of the futures contract is similar to that of the forward contract; a futures contract obligates its owner to purchase a specified asset at a specified exercise price on the contract maturity date. Futures are cash-settled and are traded in organized exchanges. Exchange traded derivatives are standardized in terms of amount and delivery date. Standardization and transparency generally ensure a liquid market together with narrower spreads. On the other hand, for delivery dates far in future, there may be insufficient liquidity in the futures market whereas an OTC price may be available.

OTC derivatives: OTC derivatives require the two parties engaging in a derivative transaction to come together through a process of negotiation. It is a derivative that is customized in terms of structure, amount, tenor, underlying assets, collateral etc. Some of the common examples are Interest rate, Forward Rate Agreements (FRAs) etc.

The following section describes some of the more common fixed income derivatives transactions along with their benefits:

a) Interest Rate Swap (IRS)

Any swap is effectively an exchange of one set of cash-flows for another considered to be of equal value. If the exchange of cash flows is linked to interest rates, it becomes an interest rate swap.

An interest rate swap is an agreement between two parties to exchange future payment streams based on a notional amount. Only the interest on the notional amount is swapped, and the principal amount is never exchanged.

In a typical interest rate swap, one party agrees to pay a fixed rate over the term of the agreement and to receive a variable or floating rate of interest. The counterparty receives a stream of fixed rate payments at regular intervals as described in the agreement and pays the floating rate of interest. A fixed / floating interest rate swap is characterized by:

1. Fixed interest rate;
2. Variable or floating interest rate, which is periodically reset;
3. Notional principal amount upon which total interest payments are based; and
4. The terms of the agreement, including a schedule of interest rate reset dates, payment dates and termination date.

The primary reason for engaging in an interest rate swap is to hedge the interest rate exposure. An illustration could be an institution having long-term fixed rate assets (longer tenor securities receiving fixed rate) in a rising interest rate environment; it can hedge the interest rate exposure by purchasing an interest rate swap where the institution receives floating interest rate and pays fixed rate. In this case, an interest rate swap is likely to reduce the duration and interest rate volatility of the fund.

Example:

Terms:

- Fixed Interest Rate : 5.50 % p.a.
- Variable Interest Rate : NSE Over-Night MIBOR reset daily and compounded daily
- Notional Principal Amount : Rs. 100 Crore
- Period of Agreement : 5 years
- Payment Frequency : Semi-annual

Now, suppose the six-month period from the effective date of the swap to the first payment date comprises 182 days and the daily compounded NSE Over-Night MIBOR is 4.50% p.a. on the first payment date, then the fixed and variable rate payments on the first payment date would be as follows:

Fixed rate payment:

$$\text{Rs. } 2,74,24,658 = (\text{Rs. } 100,00,00,000) \times (5.50\%) \times (182 \text{ Days} / 365 \text{ Days})$$

Variable rate payment:

$$\text{Rs. } 2,51,80,822 = (\text{Rs. } 100,00,00,000) \times (4.50\%) \times (182 \text{ Days} / 365 \text{ Days})$$

Often, a swap agreement calls for only the exchange of net amount between the counterparties. In the above example, the fixed-rate payer will pay the variable-rate payer a net amount of Rs. 22,43,836 = Rs. 2,74,24,658 - Rs. 2,51,80,822

The second and final payment will depend on the daily NSE MIBOR compounded daily for the remaining 183 days. The fixed rate payment will also change to reflect the change in holding period from 182 days to 183 days.

b) Forward Rate Agreement (FRA)

An FRA is an off balance sheet agreement to pay or receive, on an agreed future date, the difference between an agreed interest rate and the interest rate actually prevailing on that future date, calculated on an agreed notional principal amount. It is settled against the actual interest rate prevailing at the beginning of the period to which it relates rather than paid as a gross amount.

An FRA is referred to by the beginning and end dates of the period covered. Thus a 5x8 FRA is one that covers a 3-month period beginning in 5-months and ending in 8-months. FRAs are purchased to hedge the interest rate risk; an investor facing uncertainty of the interest rate movements can fix the interest costs by purchasing an FRA.

An illustration could be a corporation having floating rate debt linked to an index such as, say, 3-Month MIBOR. If the existing interest cost is at 5% on Rs.100 Crores for the next three months, the corporation can purchase a 3x6 FRA @ 5.1% on Rs.100 Crores and fix the interest cost for the 3-6 months period. If the actual 3-Month MIBOR after 3-months is at 5.25%, the corporation has saved 15 bps in interest cost. As the settlement is done at the beginning of the period, the savings in interest expense are discounted to a present value using a 3-month rate to calculate the actual settlement amount.

The flows for the institution will be, as follows:

Interest Savings = Rs. 100 Crores * 15 bps * 92/365

(assuming 92 days in the 3 month FRA period and 365 days in the conventional year)
= Rs.3,78,082.19

Settlement Amount = Rs.3,78,082.19/ (1+5.25%*92/365)

Advantages of Trading in Derivatives

Advantages of derivatives are many. The use of derivatives provide flexibility to schemes to hedge whole or part of the portfolio. Non index traded derivatives such as interest rate swaps allow the borrower and lender to limit their interest rate risk and optimise returns.

Exposure to Fixed Income Derivatives

The Schemes shall only use fixed income derivatives as risk management tools for hedging and portfolio balancing. Therefore, fixed income derivatives may be used to hedge up to 100% of the Schemes' net assets, in order to protect the interests of the Unit Holders under the Schemes.

Losses may arise as a result of using derivatives. However, depending upon the nature of the hedge, part of the losses is likely to be compensated by the gains on the underlying assets held by the Schemes.

E. WHAT ARE THE INVESTMENT STRATEGIES?

The Investment Manager will invest only in those debt securities that are rated investment grade by a domestic credit rating agency authorised to carry out such activity, such as CRISIL, ICRA, CARE etc. or in unrated debt securities, which the Investment Manager believes to be of equivalent quality. Where investment in unrated debt securities is sought to be made, specific approval of the Board of Directors of the AMC and Trustee shall be obtained prior to the investment. In-house research by the Investment Manager will emphasize on credit analysis, in order to determine credit risk.

F. FUNDAMENTAL ATTRIBUTES

Following are the Fundamental Attributes of the Schemes, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

(i) Type of Scheme

- Close ended
- Income Scheme
- Listed on the Stock Exchange

(ii) Investment Objective

- Main Objective - Income.

- Investment pattern - The tentative Debt/Money Market portfolio break-up with minimum and maximum asset allocation, while retaining the option to alter the asset allocation for a short term period on defensive considerations.

(iii) Terms of Issue

- Liquidity provisions: Listing - The Units of the Schemes are proposed to be listed on the NSE or any other recognized Stock Exchange(s) in India, as may be approved by the Trustee. For details, please refer provision on 'Listing'.
- Aggregate fees and expenses charged to the Scheme.
- Any safety net or guarantee provided.

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustee shall ensure that no change in the fundamental attributes of the Scheme(s) and the Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and Option(s) thereunder and affect the interests of Unit Holders is carried out unless:

- A written communication about the proposed change is sent to each Unit Holder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- The Unit Holders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

G. HOW WILL THE SCHEMES BENCHMARK THEIR PERFORMANCE?

The Board adopted benchmark for comparing the performance of the Schemes is CRISIL Liquid Fund Index.

The composition of the aforesaid benchmark is such that it is most suited for comparing performance of the respective Schemes. The Trustee may change the benchmark for any of the Schemes in future, if a benchmark better suited to the investment objective of that Scheme is available at such time.

H. WHO WILL MANAGE THE SCHEME?

Mr. Dhawal Dalal, 38 years, is the Fund Manager who will manage the investments of the Schemes. His details are as under:

I. WHAT ARE THE INVESTMENT RESTRICTIONS?

As per the Trust Deed read with the SEBI (MF) Regulations, the following investment restrictions apply in respect of the Schemes at the time of making investments. However, all investments by the Schemes will be made in accordance with the Investment Objective and Investment Pattern described earlier, as well as the SEBI (MF) Regulations, including Schedule VII thereof, as amended from time to time.

- a. The Schemes shall not invest more than 15% of their NAV in debt instruments issued by a single issuer rated not below investment grade by a credit rating agency authorized to carry out such activity under the Securities and Exchange Board of India Act, 1992 and this limit may be extended to 20% of the NAV of the Schemes, subject to prior approval of the Boards of the AMC and the Trustee. Investments within such limits can be made in mortgaged backed securitized debts which are rated not below investment grade by a credit rating agency registered with SEBI. All such investments shall be subject to the prior approval of the Boards of the AMC and the Trustee.

The aforementioned limits shall not be applicable for investment in Government securities and money market instruments.

b. The Schemes shall not invest more than 10% of their NAV in unrated debt instruments issued by a single issuer and such total investments shall not exceed 25% of the NAV of the Schemes. All such investments shall be subject to the prior approval of the Boards of the AMC and the Trustee.

c. The Schemes shall not invest more than 30% of their NAV in money market instruments of an issuer. Such limit shall not be applicable for investments in Government securities, treasury bills and collateralized borrowing and lending obligations

2. Transfer of investments from one Scheme to another Scheme in the Mutual Fund shall be allowed only if:
 - a. such transfer is done at the prevailing market price for quoted instruments on spot basis (spot basis shall have the same meaning as specified by a stock exchange for spot transactions); and transfer of unquoted securities will be made as per the policy laid down by the Trustee from time to time; and
 - b. the securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made.
3. The Schemes may invest in another scheme (except fund of funds Schemes) under the AMC or any other mutual fund without charging any fees, provided that the aggregate inter-scheme investment made by all Schemes under the same management or in Schemes under the management of any other asset management company shall not exceed 5% of the Net Asset Value of the Mutual Fund. However, the aforesaid provision shall not apply to fund of funds Schemes.
4. The Trustee/Schemes shall take delivery of scrips purchased and give delivery in the case of scrips sold and in no case shall engage in option trading, short selling or carry forward transactions or badla finance provided that the Mutual Fund shall enter into fixed income derivatives transactions in a recognised stock exchange for the purpose of hedging and portfolio balancing in accordance with the guidelines issued by SEBI.
5. The Mutual Fund shall get the securities purchased/transferred in the name of the Mutual Fund on account of the Schemes, wherever the instruments are intended to be of a long term nature.
6. Pending deployment of funds of the Schemes in terms of the investment objective of the Schemes, the Mutual Fund may invest them in short term deposits of scheduled commercial banks, subject to the following conditions:
 - a. The Schemes shall not park more than 15% of their net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
 - b. The Schemes shall not park more than 10% of their net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
 - c. The Trustee shall ensure that the funds of the Schemes are not parked in the short term deposits of a bank which has invested in the Schemes.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market.
7. The Schemes shall not make any investment in:
 - a) any unlisted security of any associate or group company of the Sponsors; or
 - b) any security issued by way of private placement by an associate or group company of the Sponsors; or
 - c) the listed securities of group companies of the Sponsors, which is in excess of 25% of the net assets.
8. No term loans for any purpose may be advanced by the Mutual Fund and the Mutual Fund shall not borrow except to meet temporary liquidity needs of the Schemes for the purpose of payment of interest or dividends to Unit Holders, provided that the Mutual Fund shall not borrow more than 20% of the net assets of each of the Schemes and the duration of such borrowing shall not exceed a period of six months.
9. If any company invests more than 5 percent of the NAV of any of the Schemes, investment made by that or any other Scheme of the Mutual Fund in that company or its subsidiaries will be disclosed in accordance with the SEBI (MF) Regulations.
10. The Schemes may also use various fixed income derivative and hedging products from time to time, as are available and permitted by SEBI, in an attempt to protect and enhance the interests of the Unit Holders at all times.
11. The Schemes will comply with any other Regulation applicable to the investments of mutual funds from time to time.

These investment limitations/parameters as expressed (linked to the Net Asset/Net Asset Value/capital) shall, in the ordinary course, apply as at the date of the most recent transaction or commitment to invest, and changes do not have to be effected merely because, owing to appreciation or depreciation in value or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any Scheme of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Mutual Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, the AMC shall adopt as a priority objective the remedying of that situation, taking due account of the interests of the Unit Holders.

Apart from the Investment Restrictions prescribed under the SEBI (MF) Regulations, there are internal risk parameters for limiting exposure to a particular security, country or sector. Such parameters are prescribed from time to time to respond to the dynamic market conditions and market opportunities.

The Trustee /AMC may alter the above stated limitations from time to time, and also to the extent the SEBI (MF) Regulations change, so as to permit the Schemes to make their investments in the full spectrum of permitted investments in order to achieve their investment objective.

J. HOW HAVE THE SCHEMES PERFORMED?

These are new Schemes being launched and hence, there is no performance track record.

SECTION VI. UNITS AND OFFER

This section provides details an investor needs to know for investing in the Scheme.

A. NEW FUND OFFER (NFO)

<p>New Fund Offer Period (This is the period during which a new scheme sells its units to the investors.)</p>	<p>NFO for DSPBRFMP - 13M - Series 2, opens on: March 02, 2010 closes on: March 09, 2010</p> <p>The NFO period of the remaining Schemes will commence at any time within six months from October 29, 2009 and information on the NFO period of the remaining Schemes will be communicated by an addendum to this SID and a notice advertisement in two newspapers, which will also be displayed at the Investor Service Centres.</p> <p>Extension or Termination of NFO Period The Trustee reserves the right to extend the closing date of the NFO period, subject to the condition that the subscription list shall not be kept open for more than 45 (forty five) days or close the subscription list earlier by giving at least one day prior notice in one daily newspaper.</p>
<p>NFO Price (This is the price per unit that the investors have to pay to invest during the NFO.)</p>	<p>The corpus of the Schemes will be divided into Units having an initial value of Rs. 10/- each. The Units can be purchased at this price during the NFO period of each Scheme.</p>
<p>Minimum Amount for Application in the NFO</p>	<p>Rs. 10,000/- and in multiples of Re. 10/- thereafter.</p>
<p>Minimum Target amount (This is the minimum amount required to operate each Scheme and if this is not collected during the NFO period, all investors would be refunded the amount invested without any return. However, if the AMC fails to refund the amount within 6 weeks, interest as specified by SEBI (currently 15% p.a.) will be paid to the investors from the expiry of six weeks from the date of closure of the subscription period.)</p>	<p>The Mutual Fund seeks to collect a minimum subscription amount of Rs. 10 crore in the Schemes during the NFO period. In the event this amount is not raised during the NFO period, the amount collected under the Schemes will be refunded to the applicants as mentioned in the section, 'Refund'.</p>
<p>Maximum Amount to be raised (This is the maximum amount which can be collected during the NFO period, as decided by the AMC.)</p>	<p>There is no maximum subscription amount for the Schemes to be raised and therefore, subject to the applications being in accordance with the terms of this offer, full allotment will be made to the applicants. However, the Trustee/AMC retains the sole and absolute discretion to reject any application.</p>
<p>Options offered under each Scheme</p>	<p>Option - Option A - Growth The Mutual Fund will not declare any dividends under this option. The income earned under this Option will remain invested in the option and will be reflected in the NAV. This option is suitable for investors who are not looking for current income but who have invested with the intention of capital appreciation. Moreover, if Units under this option are held as capital asset for a period of at least one year from the date of acquisition, Unit Holders will get the benefit of long term capital gains tax.</p> <p>Option B - Dividend Payout This option is suited for investors seeking income through dividend declared. Dividends will be paid, net of taxes, as may be applicable to those Unit holders whose names appear in the register of Unit holders on the record date. In case of Units held in demat mode, the Depositories (NSDL/CDSL) will give the list of demat account holders and the number of Units held by them in electronic form on the Record date to the Registrar of the Mutual Fund.</p> <p>Investors should indicate the Option, wherever applicable, for which the subscription is made, by indicating the choice in the appropriate box provided for this purpose in the Application Form. In case of valid applications received</p>

	<p>without indicating any choice of Option, it will be considered as Option for Growth and processed accordingly.</p> <p>All Units will rank pari passu, among Units within the same Option in each Scheme, as to assets, earnings and the receipt of dividend distributions, if any, as may be declared by the Trustee.</p>
Dividend Policy	<p>The Trustee intends to declare dividends comprising substantially of net income and net capital gains. It should be noted that the actual distribution of dividends and frequency of distribution will be entirely at the discretion of the Trustee. To the extent the entire net income and realised gains are not distributed, it will remain invested in the Option and reflected in the NAV.</p> <p>Effect of Dividend: Post declaration of dividend, the NAV of the Units under the Dividend Payout Option (Option B) will stand reduced by the amount of dividend declared and applicable dividend distribution tax/surcharge/cess/any other statutory levy.</p>
Dematerialisation	<p>The Unit holders are given an option to hold the Units by way of an account statement (physical form) or in dematerialized form (Demat).</p> <p>Unit holders opting to hold the Units in demat form must provide their Demat account details in the specified section of the application form. Unit holders intending to hold the Units in Demat form are required to have a beneficiary account with the Depository Participant (DP) registered with NSDL/CDSL and will be required to indicate in the application form, the DP's name, DP ID number and the beneficiary account number of the Unit holder with the DP.</p> <p>The Units of the Schemes will be traded compulsorily in dematerialized form.</p> <p>In case Unit holders do not provide their Demat account details or provide incomplete details or the details do not match with the records as per Depository(ies), an account statement shall be sent to them. Such investors will not be able to trade on the stock exchange till the holdings are converted in to Demat form.</p> <p>Unit holder who so desires to hold the Units in demat form at a later date, will be required to have a beneficiary account with a DP of NSDL/CDSL and will have to submit the account statement alongwith a request form asking for the conversion into demat form. This request is called a Demat Request Form (DRF).</p> <p>Unit holder will be required to fill in a DRF in triplicate alongwith the relevant details and submit the same to the Registrar alongwith the account statement to be dematerialized. The sequence of names in the account statement must be same as that in the demat account.</p> <p>Rematerialization of Units will be in accordance with the provisions of SEBI (Depositories & Participants) Regulations, 1996 as may be amended from time.</p>
Allotment	<ul style="list-style-type: none"> • Allotment: Allotment will be completed after due reconciliation of receipt of funds for all valid applications. Allotment to NRIs/FIIs will be subject to RBI approval, if required. Subject to the SEBI (MF) Regulations, the Trustee may reject any application received in case the application is found invalid/incomplete or for any other reason in the Trustee's sole discretion. For investors who have given demat account details, the Units will be credited to the investor's demat account after due verification and confirmation from NSDL/CDSL of the demat account details. As the Stock Exchange(s) do not allow trading of fractional units, Units will be allotted only in integers by rounding off the Units allotted to the lower integer and the balance amount will be refunded to the investor. • Account Statement (for non-demat account holders): An account statement will be sent by ordinary post and/or electronic mail, to each Unit Holder who has not provided his demat account details in the application form for subscription during the NFO. The account statement will state the number of Units allotted not later than 30 days from the close of the NFO Period of the respective Schemes. The Account Statement shall be non-transferable. Despatch of account statements to NRIs/FIIs will be subject to RBI approval, if required.

	<ul style="list-style-type: none"> • Allotment Advice (demat account holders): For investors who have given valid demat account details at the time of NFO, the Units issued by the AMC shall be credited by the Registrar to the investors' beneficiary account with the DP as per information provided in the application form and information of allotment will be accordingly sent by the Registrar. • Normally no Unit certificates will be issued. However, if the applicant so desires, the AMC shall issue a non-transferable Unit certificate to the applicant within 30 days of the receipt of request for the certificate. • The Mutual Fund reserves the right to recover from an investor any loss caused to the Schemes on account of dishonour of cheques issued by him/her/it for purchase of Units.
Maturity	<ul style="list-style-type: none"> • The Schemes shall be fully redeemed/wound up at the end of the Term, i.e. on the Maturity Date. • The Maturity Date will be approximately at the end of 13 months or 18 months or 24 months, as the case may be, from the Date of Allotment of the respective Schemes. The exact date will be disclosed in the account statement/allotment advice. If such day is not a Business Day, the immediately succeeding Business Day will be considered as the Maturity Date. • No redemption/repurchase of units shall be allowed prior to the maturity of the Schemes. However, for units held in electronic/demat form, investors wishing to exit may do so through the stock exchange mode. • For the Units held in electronic form, at maturity, the Units will be extinguished with the Depository and the redemption amount will be paid to the Unit Holders at the applicable NAV of that date. • The maturity proceeds will be paid to the investors whose names appear in the Register of Unit holders on the respective date of maturity of the Schemes within 10 working days from the date of Maturity. • However, the Schemes may be wound up at any time prior to the Maturity Date under the following circumstances: <ul style="list-style-type: none"> 1) On the happening of any event, which, in the opinion of the Trustee, requires that the Scheme concerned be wound up; 2) If seventy five per cent of the Unit Holders of the Scheme concerned pass a resolution that the Scheme be wound up; 3) If SEBI so directs in the interest of the Unit Holders.
Refund	<ul style="list-style-type: none"> • If the Schemes fail to collect the minimum subscription amount of Rs. 10 Crore each, the Mutual Fund shall be liable to refund the money to the applicants. • Refund of subscription money to applicants whose applications are invalid for any reason whatsoever, will commence immediately after the closure of the NFO. • Refunds will be completed within six weeks of the closure of the New Fund Offer Period. If the Mutual Fund refunds the amount after six weeks, interest as specified by SEBI (currently, 15% per annum) shall be paid by the AMC. Refund orders will be marked "A/c. Payee only" and drawn in the name of the applicant in the case of a sole applicant and in the name of the first applicant in all other cases. All refund cheques will be mailed by Registered Post or as per the applicable Rules. As per the directives issued by SEBI, it is mandatory for Applicants to mention their bank account numbers in their applications for purchase of Units.

B. ONGOING OFFER DETAILS

Ongoing Offer Period* (This is the date from which the Scheme will reopen for subscriptions/redemptions after the closure of the NFO period)	Not applicable. Being close ended Schemes, investors can subscribe to Units of the Schemes through the Mutual Fund/AMC only during the NFO period. However, once the Units are listed, an investor can buy/sell Units of the Schemes on a continuous basis on the NSE and/or any other Stock Exchange like any other publicly traded stock.
Ongoing price for subscription (Purchase Price)* (This is the price you need to pay for purchase/switch-in)	Being close ended Schemes, investors can subscribe to Units of the Schemes through the AMC/Fund at Rs. 10/- per Unit only during the NFO period of each Scheme. However, once the Units are listed, an investor can buy Units of the Schemes from the exchange at prices which may be above or below the actual NAV of the Schemes, depending upon the supply and demand of the Units at that point of time. A separate ISIN (International Security Identification Number) will be allotted for each Option under the Schemes.
Ongoing price for redemption (sale) /switch outs (to other Schemes/plans of the Mutual Fund)/intra-Plan switching by investors (Redemption Price)*(This is the price you will receive for redemptions/switch outs) <i>* Investors can only trade in the Units of the Schemes on the Stock Exchange, if they have provided complete demat account details in the application form at the time of NFO, or post allotment, have dematerialized their units.</i>	Redemption/Switch-out is not permitted by the Mutual Fund during the term of the Schemes. However, once the Units are listed, an investor can sell Units of the Schemes through the Exchange at prices which may be above or below the actual NAV of the Schemes, depending upon the supply and demand of the Units at that point of time. No request for redemption or switch will be accepted by the Mutual Fund/Registrar.
Cut off timing for subscription/redemption/ switch out (This is the time before which your redemption request (complete in all respects) should reach the official points of acceptance)	For purchases and switch-ins The Units of the Schemes will not be available for subscriptions/switch-in after the closure of the NFO period. For redemptions and switch-outs Redemption/switch-out through the Fund/AMC is not permitted during the term of the Schemes. Therefore, the provisions of cut-off timing for redemption/switch-out will not be applicable. However, once the Units are listed, an investor can buy/sell the units on a continuous basis on the Exchange during the trading hours, like any other publicly traded stock. Switch-out request to other Schemes of the Mutual Fund will be accepted upto 3.00 p.m. on the Maturity Date.
Where can the applications for purchase/redemption/ switch-out be submitted?	The Units will not be available for subscription/switch-in after the closure of the NFO period. Redemption/Switch-out is not permitted during the term of the Schemes. However, once the Units are listed, the Units can be sold by making such request in the prescribed form to the DP. Switch-out applications from the Schemes to any other scheme(s) of the Mutual Fund on the Maturity Date may be submitted at any of the official points of acceptance of transactions, the addresses of which are given at the end of this SID.
Listing	The Units of the Schemes will be listed on the Capital Market Segment of NSE within 30 days from the close of NFO. NSE has vide its letter no. NSE/LIST/118533-Z dated September 15, 2009 provided in-principle approval to

	<p>the Mutual Fund for listing of the Units of the Schemes on NSE.</p> <p>The Mutual Fund may at its sole discretion list the Units under the respective Schemes on any other recognized Stock Exchange(s) at a later date. The Trustee shall issue an addendum for listing of Units on any other recognised Stock Exchange in India, and a public notice to this effect will be given in two newspapers and also displayed at the Investor Service Centres. All regulatory procedures will be followed in this regard.</p> <p>An investor can buy/sell Units on a continuous basis on NSE and/or any other Stock Exchange(s) on which the Units are listed during the trading hours like any other publicly traded stock, until the date of issue of notice by the AMC for fixing the record date for determining the Unit holders whose name(s) appear on the list of beneficial owners as per the Depository's (NSDL/CDSL) records for the purpose of redemption of Units on maturity/final redemption date. The trading of Units on NSE and/or any other Stock Exchange(s) on which the Units are listed will automatically get suspended from the date of issuance of the said notice and also no off-market trades shall be permitted by the Depositories.</p> <p>The price of the Units in the market will depend on demand and supply at that point of time. There is no minimum investment, although Units are purchased in round lots of 1.</p> <p>As the Stock Exchange(s) do not allow trading of fractional units, Units may be allotted only in integers by rounding off the Units allotted to the lower integer and the balance amount may be refunded to the investor.</p> <p>Transaction Cost: Though there will be no entry/exit load for buying/selling the Units from/to the secondary market, the investors will have to bear the other costs related to transacting in the secondary market, e.g. brokerage, service tax, etc.</p> <p>The Schemes will be de-listed after their respective tenures. The AMC/Trustee will initiate the delisting procedure prior to the date of maturity. The Unit holders will not be able to trade on the stock exchange once the Schemes are delisted.</p>
<p>Settlement of Purchase / Sale of the Units of Scheme on the NSE</p>	<p>Buying / Selling of units of the Schemes on the NSE is just like buying/selling any other normal listed security.</p> <p>If an investor has bought units, he has to pay the purchase amount to the trading member/sub-broker, such that the amount paid is realised by the trading member who has bought the units before the funds pay-in day of the settlement cycle on the NSE. If an investor has sold units, he has to deliver the units to the broker/sub-broker before the securities pay-in day of the settlement cycle on the NSE. The units (in the case of units bought) and the funds (in the case of units sold) are paid out to the trading member on the payout day of the settlement cycle on the NSE. The Exchange regulations stipulate that the trading member should pay the money or units to the investor within 24 hours of the payout.</p> <p>If an investor has bought units, he should give standing instructions for '<i>Delivery-In</i>' to his DP for accepting units in his beneficiary account. An investor should give the details of his beneficiary account and the DP-ID of his DP to his trading member/sub-broker. The trading member will transfer the units directly to the investor's beneficiary account on receipt of the same from Exchanges' Clearing Corporation.</p> <p>An investor who has sold units should instruct his (DP) to give '<i>Delivery Out</i>' instructions to transfer the units from his beneficiary account to the Pool Account of his trading member through whom he has sold the units. The details of the Pool A/c of his trading member to which the units are to be transferred, unit quantity etc. should be mentioned in the Delivery Out instructions given by him to the DP.</p>

	The instructions should be given well before the prescribed securities pay-in day. SEBI has advised that the Delivery Out instructions should be given at least 24 hours prior to the cut-off time for the prescribed securities pay-in to avoid any rejection of instructions due to data entry errors, network problems, etc.
Rolling Settlement	The Pay-in and Pay-out of funds and the securities/units takes place within 2 working days after the trading date. The pay-in and pay-out days for funds and securities are prescribed as per the Settlement Cycle of the Exchange.
Minimum amount for purchase/redemption/switch out	Not applicable, as purchase/redemption/switch-out is not permitted during the term of the Schemes. The listed units will have to be sold in lots of 1(one) unit or such other marketable lots as prescribed by the Exchange, from time to time.
Minimum balance to be maintained and consequences of non maintenance.	Not applicable.
Special facilities available	<ul style="list-style-type: none"> • Personal Identification Number (PIN) <p>For the convenience of investors, the Mutual Fund provides the facility of transacting over telephone, and may also start the facility of Internet transactions. To use these facilities, a Unit Holder needs to have a secured PIN. Investors can apply for a PIN by filling up and signing the relevant portion in the application form or in the common transaction form.</p> <p>By signing the relevant form, the Unit holder/s expressly agrees to have read and understood the following terms and conditions related to PIN issuance by the AMC/Registrar and PIN usage by the Unit holder/s:</p> <ul style="list-style-type: none"> • If the mode of holding is 'Single' or 'Anyone or survivor', the facility will be available to the Unit Holder for all transactions permitted. However, if the mode of holding is 'Joint' and the PIN is requested by all Unit holders by duly signing the form, it will be deemed to be an express instruction to the AMC / Registrar to change the mode of holding to either or survivor so that all transaction facilities will be available. • The AMC/Registrar will send the PIN to the first Unit Holder using secure, tamper proof stationery to the registered address of the sole / first holder using a reputed mailing agency like courier or post however entirely and solely at the risk of the said Unit Holder(s). • While receiving the PIN, the Unit Holder(s) should ensure that it is received in a sealed envelope. In case the Unit Holder (s) has/have any doubt that the seal has been tampered with, he/they should immediately inform the Registrar. • Unit Holders may use the PIN to avail of the various services offered through the call centre and on the website www.dspbblackrock.com or any other website for which PIN is issued as and when the internet facility is started. • The AMC/Registrar will not be in a position to verify the user of the PIN and therefore, shall not be responsible or shall not be liable for any transactions arising out of misuse of the PIN by any of the Unit Holder(s) or any other third party. • Unit Holders may use the PIN to carry out one or more of the following types of transactions, including transactions as may be permitted by calling the Call Centre or accessing the website as and when such facility is offered: <ul style="list-style-type: none"> • Redemption • Switch • Static data changes viz. change of address, change of bank mandate, etc. • Any other service which the AMC may decide to offer, from time to time. • This facility is not offered to categories of Unit Holders who transact through a Power of Attorney or through arrangements via brokers/distributors. The AMC reserves the right to reject the issue of PIN to such Unit Holder. • The Unit Holder will be asked for PIN verification before the request is accepted. In the interest of the Unit Holder, the Mutual Fund reserves the right to ask for a fax confirmation of the request and any additional information about the account of the Unit Holder. • The Unit Holder (s) shall not disclose the PIN to any person nor should the PIN be written down where any other person may discover it. • The Mutual Fund or the Registrar shall not take any liability or responsibility arising out of the unauthorized usage of the PIN or unauthorized transactions conducted by using the PIN facility. All transactions with the use of the PIN will be the sole responsibility of the Unit Holder(s). The Unit Holder(s) shall indemnify the Registrar, the Mutual Fund and/or the AMC for all liabilities, losses, damages and expenses which they may sustain or incur directly or

	<p>indirectly as a result of:</p> <ul style="list-style-type: none"> • Providing the facility of carrying out transactions, as available, over the telephone or internet, • Fraud or dishonesty relating to any transaction using PIN, • Non compliance of terms and conditions relating to transactions over telephone or internet using the PIN, • Any transactions that are carried out on the basis of instructions over the telephone/internet, given by unauthorized persons by gaining access to PIN, • Any loss or damage incurred or suffered by the Unit Holder's due to any error, defect, failure or interruption in the provision of this facility arising from or caused by any reason whatsoever. • It shall be the sole responsibility of the Unit Holder (s) to ensure adequate protection and confidentiality of the PIN and any disclosure thereof to any other person shall be entirely at the risk of the Unit Holder's. Unit Holder (s) should report the loss of the PIN immediately upon discovery of such an event. • In the event of loss of PIN by the Unit Holder or due to Unit Holder having forgotten the PIN, a request for issue of a duplicate PIN shall be considered only on receipt of a written request from the Unit Holder, subject to signature verification/validation. • The Unit Holder(s) shall take complete responsibility for all transactions conducted by using the PIN and the Unit Holder(s) will abide by the record of transactions generated by the Mutual Fund or the Registrar. • The Mutual Fund may, at its absolute discretion, issue a new PIN to Unit Holder(s) on these terms and conditions or such terms and conditions as the Mutual Fund may deem fit. The Mutual Fund may also discontinue this facility at any time in future or make changes in terms and conditions for telephone/internet transactions without assigning any reasons thereof and the Unit Holder agrees to be bound by the same. • All records, whether in electronic form, magnetic medium, documents or any other with respect to instructions received for use of the PIN facility or instructions received through use of the facility shall be conclusive evidence of such instructions and shall be binding on the Unit Holder. • Usage of, or subscription to the PIN facility shall be in addition to, and not in substitution of, the existing procedure for conducting transactions. The AMC shall not be responsible for any errors that may be committed by the user in the process of conducting any transaction through PIN. • The Unit Holder(s) shall give a thirty days notice to the Registrar in writing if he/she/it/they wish to terminate this facility. <p>• Pledge of Units for Loans</p> <ul style="list-style-type: none"> • Units can be pledged by the Unit Holders as security for raising loans, subject to any rules/restrictions that the Trustee may prescribe from time to time. • For Units held in demat form, the rules of the DP will be applicable for pledge of the Units. Units held in electronic form can be pledged by completing the requisite forms/formalities as may be required by the Depository. The pledge gets created in favour of the pledgee only when the pledgee's DP confirms the creation of pledge in the system. • In case of Units held in physical form, the Registrar will note and record such pledge. A standard form for this purpose is available on request with the Registrar. • The Pledgor will continue to receive dividend on the pledged securities. The Pledgee will get the benefits only if a pledge is invoked and on the record date the shares are in the pledgee's account. On invocation of pledge, the Fund will on the Maturity Date, pay the proceeds to the pledgee based on data from his DP.
Transfer of Units	<p>The Units of the Schemes held by way of account statement are not transferable. Units held in dematerialized form are transferable in accordance with the provisions of SEBI (Depositories and Participants) Regulations, as may be amended from time to time. The intended transferee should be eligible to hold Units under the Schemes and have a beneficiary account with a DP of NSDL/CDSL. The AMC shall not be bound to recognise any other transfer.</p> <p>For effecting the transfer of Units held in electronic form, the delivery instructions for such transfer will have to be lodged by the investor with his DP in the requisite form as may be required from time to time and the transfer will be</p>

	effected in accordance with such rules/regulations as may be in force governing transfer of securities in dematerialized mode.
Account Statements/Allotment Advice	<p>Units held in physical form:</p> <ul style="list-style-type: none"> • For Unit Holders who have provided an e-mail address, the AMC will send the account statement by e-mail. • The Unit Holder may request for a physical account statement by writing to/calling the AMC/Registrar. • Annual Account Statement: The Mutual Fund shall provide account statement to Unit Holders who have not transacted during the last six months prior to the date of generation of account statements. The Account Statement shall reflect the latest closing balance and value of the Units prior to the date of generation of the account statement. The account statements in such cases may be generated and issued along with the Portfolio Statement or Annual Report of the Schemes. Alternately, a soft copy of the account statements shall be mailed to the investors' e-mail address, instead of physical statement, if so mandated. • Account Statements shall be non-transferable. They shall not be construed as proof of title and are only computer printed statements indicating the details of transactions under the Schemes during the current financial year and giving the closing balance of Units for the information of the Unit Holder. <p>Units held in demat (electronic) mode: Units will be credited to the demat account of the Unit Holder. An intimation to this effect will be issued to the Unit Holder by the Registrar.</p>
Dividend	Dividend warrants shall be despatched to the Unit Holders as on Record Date, within 30 days of the date of declaration of the dividend.
Redemption	<p>Redemption by the Mutual Fund is not permitted during the term of the Schemes. However, once the Units are listed, an investor holding Units in demat form can sell the Units on a continuous basis on the exchange during the trading hours, like any other publicly traded stock.</p> <p>The maturity redemption proceeds will be dispatched to Unit holders within 10 working days of the Maturity Date. The cheque will be issued in favour of the sole/first Unit Holder's registered name and bank account number, if provided, and will be sent to the registered address of the sole/first holder as indicated in the original application form. The redemption cheque/demand draft will be payable at par at all the places where the official points of acceptance of transaction are located. Bank charges for collection of cheques at all other places will be borne by the Unit Holder. For redemptions of amounts above Rs. 5,000/-, the cheques will be sent by courier (where such facilities are available). With a view to safeguarding their interest, it is desirable that Unit Holders indicate their Bank Account No., name of the bank and branch in the application for purchasing Units of the Schemes.</p>
Delay in payment of redemption / repurchase proceeds	The AMC shall be liable to pay interest to the Unit Holders at such rate as may be specified by SEBI (presently @ 15% per annum) in case the redemption proceeds are not made within 10 working days of the Maturity Date.

C. PERIODIC DISCLOSURES

D. COMPUTATION OF NAV

NAV of Units under each Scheme/Plan may be calculated by either of the following methods shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme/Plan's investments} + \text{Current Assets} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under the Scheme/Plan}}$$

Or

$$\text{NAV (Rs.)} = \frac{\text{Unit Capital} + \text{Reserves and Surplus}}{\text{No. of Units outstanding under the Scheme/Plan}}$$

N.B. The aforesaid provisions pertaining to "Calculation of NAV", shall apply in respect of the Schemes and each individual Plan.

NAVs will be rounded off to four decimal places and will be computed and declared on every Business Day, as of the close of such Business Day. The valuation of the Schemes' assets and calculation of the Schemes' NAV shall be subject to audit on an annual basis and such regulations as may be prescribed by SEBI from time to time.

The first NAV will be calculated and announced within a period of 30 days after the close of the New Fund Offer Period. Subsequently, the NAV of the Schemes will be published in atleast two daily newspapers, on every Business Day.

Note: There will be more than one NAV, one for each option, after the declaration of the first dividend.

SECTION VII. FEES AND EXPENSES

This section outlines the expenses that will be charged to the Schemes.

A. NFO EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. The NFO expenses of floating the Schemes will be borne by the AMC.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the Scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar's fee, marketing and selling costs etc., as given in the table below:

The AMC has estimated that upto 2.00% of the weekly average net assets of each Scheme will be charged to the Scheme as expenses. For the actual current expenses being charged, investors should refer www.dspblackrock.com.

Particulars	% of Net Assets
Investment Management & Advisory Fee	0.70
Custodial Fees	0.03
Registrar & Transfer Agent Fees including cost related to providing accounts statements, dividends etc.	0.03
Marketing & Selling Expenses and statutory advertisement	0.05
Listing fees	0.01
Service charges of Depository	0.01
Brokerage & Transaction Cost pertaining to the distribution of units (including Agents Commissions)	0.95
Audit Fees / Fees and expenses of Trustee	0.02
Costs related to investor communications	0.10
Costs of fund transfer from location to location	0.05
Other Expenses (as may be permitted by SEBI under Regulation 52)	0.05
Total Recurring Expenses	2.00

These estimates have been made in good faith as per the information available to the AMC based on past experience, and are subject to change inter-se. Types of expenses charged shall be as per the SEBI (MF) Regulations.

Apart from these expenses, any other expenses which are directly attributable to the Schemes, may be charged with the approval of the Trustee within overall limits as specified in the SEBI (MF) Regulations except those expenses which are specifically prohibited. The annual total of all charges and expenses of the Scheme, except for brokerage, commissions, stamp duties and other (transaction) expenses directly associated with the purchase, sale and registration of transfer of the scheme's investment/securities and except for expenses associated with the NFO of the Schemes and also except for expenses which are directly met/set off against sale shall be subject to the following limits, under Regulation 52 of the SEBI (MF) Regulations:

On the first Rs.100 Crores of the average weekly net assets	2.25%
On the next Rs.300 Crores of the average weekly net assets	2.00%
On the next Rs.300 Crores of the average weekly net assets	1.75%
On the balance of the assets	1.50%

The Mutual Fund will strive to reduce the level of these expenses so as to keep them well within the maximum limits allowed by SEBI and expenditure in excess of the above limits shall be borne by AMC.

In terms of the Investment Management Agreement and Regulation 52 of the SEBI (Mutual Funds) Regulations, the AMC is entitled to an Investment Management Fee at 1.25% per annum of the weekly average net assets for a corpus of upto Rs. 100 crore and at 1% per annum for the corpus amount in excess of Rs. 100 crore.

For the actual current expenses being charged, the investor should refer to the website of the Mutual fund.

C. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the Units or to redeem the units from the Scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, investors may refer the website of the AMC www.dspblackrock.com or call at 1800- 200-44-99 (toll free) or may contact their distributor.

There will be no Entry Load or Exit Load in the Schemes.

Investors may note that the Trustee has the right to modify the existing load structure, subject to a maximum as prescribed under the SEBI (MF) Regulations. Any imposition or enhancement in the load shall be applicable on prospective investments only. At the time of changing the load structure, the AMC shall consider the following measures to avoid complaints from investors about investment in the schemes without knowing the loads:

- (i) Addendum detailing the changes will be attached to the SID and Key Information Memorandum (KIM).
- (ii) Arrangements will be made to display the addendum to the SID in the form of a notice in all the ISCs/offices of the AMC/Registrar.
- (iii) A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated.
